Emergency Repairs Required at Seventh Street Crossing

Repairs were recently made to the Seventh Street Bear Butte Crossing. Heavy rains in June caused erosion which undercut the roadway.

The crossing suffered enough damage that the street was restricted to one lane.

The Public Works Department worked closely with Brosz Engineering to develop a permanent solution by installing sheet pilings that will control future erosion.

Due to the significant threat to public safety, the City Council authorized \$79,429 for emergency repairs.

CORR Construction performed the necessary repairs and the crossing is now open to regular traffic.

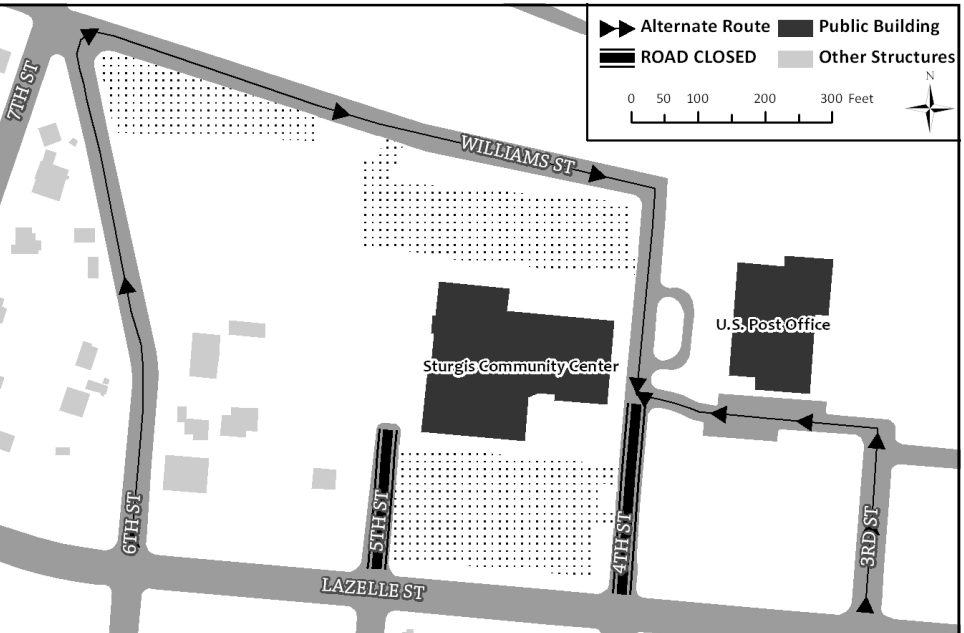

City Seeks Input on Multi-Use Facility

As the City explores options for relocating the Sturgis Fairgrounds, they are asking civic and sports groups as well as individuals for input.

The Fairgrounds Use Committee would like to know what types of activities might be of interest to the general public, what specific features might be needed to accommodate various activities and how a new multi-use complex would best fit the needs of the community.

Comments and suggestions can be sent via e-mail to the City Manager at dainslie@sturgisgov.com or members of the public can attend a Fairgrounds Use Committee meeting and share their ideas. Meetings usually take place on Thursday evenings at 6:30 at City Hall. To confirm a meeting date or time please call 347-4422.
